Foundational Level

Level	Beginner
Course Code	6A402G
Title	IBM Safer Payments Hands-on Technical Primer (v6.4.x)
Duration	5 days
Summary	This course teaches IBM Safer Payments users how to install and configure the system, as well as how to build fraud models and investigate alert cases.
Topic	Installation, configuration, and fraud model building
Audience	Technical professionals involved in system installation and configuration
Prerequisites	Basic understanding of fraud detection systems
Badge	Badge IBM Safer Payments Hands-on Technical Primer (v6.4.x)
Level	Beginner
Course Code	-
Title	IBM Safer Payments: Foundation Overview
Duration	2 days
Summary	Provides an introduction to the IBM Safer Payments platform, its features, and benefits.
Topic	Platform overview and key features
Audience	New users and stakeholders interested in IBM Safer Payments
Prerequisites	None

Level	Beginner
Badge	Badge IBM Safer Payments Foundation Overview
Level	Beginner
Course Code	-
Title	IBM Safer Payments: Getting Started
Duration	2 days
Summary	Covers the basics of setting up and configuring IBM Safer Payments, including user roles and navigation.
Topic	Basic setup, configuration, and navigation
Audience	New users responsible for initial setup and configuration
Prerequisites	Foundation Overview course recommended
Badge	Badge IBM Safer Payments Getting Started

Intermediate Level

Level	Intermediate
Course Code	6A422G
Title	IBM Safer Payments SysOps Training (v6.4.x)
Duration	3 days
Summary	This course teaches IBM Safer Payments users how to install and configure the system as well as the operational aspect of IBM Safer Payments.
Topic	System operations, maintenance, and troubleshooting
Audience	System administrators and operations staff
Prerequisites	Hands-on Technical Primer course recommended
Badge	Badge IBM Safer Payments SysOps Training (v6.4.x)
Level	Intermediate
Course Code	6A430G
Title	IBM Safer Payments Hands-on Modeling Training Primer (v6.4.x)
Duration	3 days
Summary	This course teaches IBM Safer Payments users how to perform model activity ranging from creating new profiles as an important input for statistical models and how to use the sandbox environment.
Topic	Model creation and management

Level	Intermediate
Audience	Data analysts and modeling professionals
Prerequisites	Basic understanding of statistical models
Badge	Badge IBM Safer Payments Hands-on Modeling Training Primer (v6.4.x)
Level	Intermediate
Course Code	6A442G
Title	IBM Safer Payments Hands-on Case Management Training (v6.4.x)
Duration	2 days
Summary	This course teaches IBM Safer Payments users how to configure and customize the built-in case management, and the workflow and activities involved when investigating cases.
Topic	Case management configuration and customization
Audience	Fraud analysts and case managers
Prerequisites	Basic understanding of case management processes
Badge	Badge IBM Safer Payments Hands-on Case Management Training (v6.4.x)

Advanced Level

Level	Advanced
Course Code	-
Title	IBM Safer Payments: Advanced Modeling Techniques
Duration	3 days
Summary	Delves deeper into advanced modeling techniques, including custom model development and optimization.
Topic	Advanced modeling and optimization techniques
Audience	Experienced data analysts and modeling experts
Prerequisites	Hands-on Modeling Training Primer course recommended
Badge	Badge IBM Safer Payments Advanced Modeling Techniques
Level	Advanced
Course Code	-
Title	IBM Safer Payments: Expert SysOps Training
Duration	3 days
Summary	Provides expert-level training on system operations, including advanced

Level	Advanced	
	troubleshooting, performance tuning, and high-availability configurations.	
Topic	Advanced system operations and performance tuning	
Audience	Senior system administrators and IT professionals	
Prerequisites	SysOps Training course recommended	
Badge	Badge IBM Safer Payments Expert SysOps Training	
Level	Advanced	
Course Code	-	
Title	IBM Safer Payments: Fraud Analytics Mastery	
Duration	3 days	
Summary	Focuses on mastering fraud analytics using IBM Safer Payments, covering advanced analytical techniques and real-world case studies.	
Topic	Advanced fraud analytics and case studies	
Audience	Senior fraud analysts and data scientists	
Prerequisites	Hands-on Technical Primer and Modeling Training courses recommended	
Badge	Badge IBM Safer Payments Fraud Analytics Mastery	
Level	Advanced	
Course Code	-	
Title	IBM Safer Payments: Comprehensive Security Management	
Duration	3 days	
Summary	Covers comprehensive security management within IBM Safer Payments, including best practices and advanced security features.	
Topic	Advanced security management and best practices	
Audience	Security managers and IT security professionals	
Prerequisites	Basic understanding of security management	
Badge	Badge IBM Safer Payments Comprehensive Security Management	
Level	Advanced	
Course Code	-	
Title	IBM Safer Payments: Integration and API Mastery	
Duration	3 days	
Summary	Provides in-depth training on integrating IBM Safer Payments with other systems and mastering API usage.	

Level	Advanced
Topic	Integration techniques and API mastery
Audience	IT professionals and developers
Prerequisites	Basic understanding of APIs and system integration
Badge	Badge IBM Safer Payments Integration and API Mastery

Course Attributes

Note: Here are the attributes for the IBM Safer Payments courses:

- **Duration:** Varies by course
- **Unit:** H
- **Modality:** CR
- **Job Role:** Various
- **Market Category:** Industry
- **Product:** IBM Counter Fraud Management for Safer Payments
- **Brand:** WFSS - Financial Crimes and Conduct Risk
